*“Biotechnologies for
Safer Agriculture”*

DI-21 concentrate is a deodorizer, disinfectant, fungicide, mildewstat and virucide* for use in **horticultural and agricultural** applications.

DI-21 is ideal for routine cleaning of **greenhouse floors, tables, benches, walls and equipment.**

DI-21 delivers unsurpassed non-acid cleaning performance in an economical concentrate. Powerful, effective, yet economical, **DI-21** is a heavy duty disinfectant cleaner that disinfects, cleans and deodorizes in one labor saving step.

DI-21 is a proven “one-step” disinfectant - cleaner - sanitizer - fungicide - mildewstat - virucide which is effective in water up to 400 ppm hardness in the presence of 5% serum contamination.

- **DI-21** meets EPA’s Sanitizer Test standards for non-food contact surfaces.
- **DI-21** meets AOAC Use-Dilution Test standards for hospital disinfectants.
- **DI-21** meets AOAC Use Dilution Test standards for hard surface disinfectants.
- **DI-21** is an effective one-step sanitizer cleaner for use on non-food contact surfaces.

DI-21

Disinfectant - Cleaner - Sanitizer - Fungicide - Mildewstat
Virucide* - Deodorizer

For Hospitals, Institutional and Industrial Use

Effective in hard water up to 400 ppm hardness

(Calculated as CaCO₃) in the presence of 5% serum contamination

Active Ingredients

Octyl decyl dimethyl ammonium chloride	.510%
Dioctyl dimethyl ammonium chloride	2.604%
Didecyl dimethyl ammonium chloride	3.906%
Alkyl (C ₁₄ , 50%; C ₁₂ , 40%; C ₁₆ , 10%) dimethyl benzyl ammonium chloride	8.680%

Inert Ingredients

78.300%
100.000%

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

DI-21 can be applied with a mop and bucket, sponge, spray bottle, trigger sprayer or by soaking to walls, floors, and other hard non-porous surfaces, such as tables, chairs, countertops, sinks, tile, porcelain, toilet bowls and urinals. For heavy soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or when use solution becomes visibly dirty.

DISINFECTION - to disinfect hard, non porous surfaces, add 0.5 oz. per gallon of water. Treated area must remain wet for 10 minutes. Rinse with potable water when finished.

DI-21 is effective against a broad spectrum of gram negative and positive like: *Pseudomonas aeruginosa*, *Staphylococcus aureus*, *Salmonella choleraesuis* and *E. coli* among others.

VIRUCIDAL PERFORMANCE* - use 0.5 oz. per gallon and let solution contact surface for 10 minutes at room temperature.

FUNGICIDAL PERFORMANCE - **DI-21** is effective against Trichophyton mentagrophytes (the athletes foot fungus) at 0.5 oz. per gallon.

MOLD AND MILDEW CONTROL - use 0.5 oz. per gallon to inhibit growth of mold and mildew and the odors they cause. Allow to dry on surface and repeat when mildew growth returns.

SANITIZING NON-FOOD CONTACT SURFACES - at 0.5 oz. per gallon, **DI-21** is an effective sanitizer against Staphylococcus aureus and many others on hard non-porous surfaces. Treated surface must remain wet for 60 seconds.

* See label for full details.
