Biotechnologies for Safer Agriculture

# JH BIOTECH, INC.

*"Biotechnologies for Safer Agriculture,"* the motto

of JH Biotech, Inc. clearly states the basic goal of the company. Safety in agriculture and the impact of its products on the environment are the major concerns of JH Biotech, Inc. JH Biotech, Inc. was founded in 1987 by Dr. H. John Hsu with primary activities in the field crop, vegetable, and fruit industries, along with home garden and nursery segments in the western region of the continent. Its marketing activities extend internationally. The fundamental technological basis for JH Biotech, Inc. is the chelation process and applied microbiology. The same theory and practice has also expanded into animal feed supplements.
