

NATURAL WET®

Bio-Degradable Antistress Wetting Agent

PRODUCT INFORMATION

Natural Wet is a special formulation which includes saponins derived from Yucca plants which is used by the Yucca plant to alleviate the stress suffered under unfavorable conditions. **Natural Wet** may also facilitate nutrient and water absorption into the plant and stimulate plant growth and development. The principle ingredients in **Natural Wet** are saponins which are saponin glycosides derived mainly from yucca plant extracts. The Yucca plant and similar plants have adapted to harsh environments. These plants produce the saponins that aid in their survival. Natural Wet can be applied to potting mixes to aid in the uniformity of water absorption.

Guaranteed Analysis

Non-Plant Food Ingredients

Saponin	10%
(Derived from <i>Yucca schidigera</i>)	
Inert Ingredients	90%
Total.....	100%

SHAKE WELL BEFORE USING

Directions of Use

Soil Application: Apply 16 oz. per acre (2 liters/hectare) in enough water to cover the acre.

Row Crops: Mix **Natural Wet** with fertilizer solutions.

Transplants: Mix **Natural Wet** with transplant water.

Bulk Soil: Add 16 oz. of Natural Wet per cubic yard while mixing.

Foliar Application:

Dilute Sprays: Use 16 fl. oz. of **Natural Wet** per 100 gallons (1 liter/800 liters) of spray solution.
