

**FUNCTIONAL
PLANT FOOD™**

SALT DOWN™

Soil Salt Remover

GUARANTEED ANALYSIS

Calcium (Ca).....10.0%
Derived from calcium chloride.

DIRECTIONS FOR USE

Salt Down is a calcium source which reduces excess sodium levels in the soil. **Salt Down** restores soil structure for better drainage and increased plant vigor.

DIRECTIONS FOR USE

Salt Down can be applied with various irrigation systems including drip, lateral move, overhead, flood and pivot. Some soils may require higher rates than listed. Conduct a soil test for best recommendation. Repeat application at 2-3 week intervals until sodium drops to an acceptable level.

Flood Irrigation (all crops): Band in **Salt Down** at 6-10 gallons/acre and water in. Repeat application at 2-3 week intervals until sodium drops to an acceptable level.

Center Pivot, Drip and Other Irrigation Systems: Beans, Strawberry, Onion (Low Salt Tolerant Crops): First application: 10 gallons/acre. Repeat application (2-3 weeks later): 7 gallons/acre. Inject into system at the beginning of irrigation cycle.

Citrus, Grapes, Lettuce (Moderate Salt Tolerant Crops): First application: 8 gallons/acre. Repeat application (2-3 weeks later): 6 gallons/acre. Inject into system at the beginning of irrigation cycle.

Beets, Broccoli, Spinach (High Salt Tolerant Crops): First application: 7 gallons/acre. Repeat application (2-3 weeks later): 6 gallons/acre. Inject

into system at the beginning of irrigation cycle.

Turf: Apply 1-2 quarts of **Salt Down** in 5 gallons of water per 1,000 sq. ft. and water in past the root zone (2-3 inches). Repeat application every 4 weeks until sodium drops to acceptable level.

Ornamentals: Dilute 1 part of **Salt Down** with at least 20 parts of water and apply to soil. Repeat at two week intervals as needed.

CAUTION

KEEP OUT OF REACH OF CHILDREN

NO WARRANTY

Neither manufacturer nor sellers shall be liable for any direct or indirect damage resulting from the use of this product whether or not in accordance with directions or suggestions. The user assumes all risks in use or handling. Since weather, crop, soil and other conditions may vary, the manufacturer and the seller make no warranty concerning the effectiveness of the product.
