

BIOMIN[®]

STARTER

2-0-0

Minerals for Soil and Foliar Application

DIRECTIONS

SHAKE WELL BEFORE USING SOIL APPLICATION:

BIOMIN STARTER can be applied before or at planting through irrigation water, as banding or broadcast. The application rate is 1 quart-1 gallon per acre (2.5 to 10 liters per hectare) depending on soil conditions and application methods. For maintenance, 1 quart per acre (2.5 liters per hectare) is recommended. **BIOMIN STARTER** should be diluted with enough water to cover the entire acre.

FOLIAR APPLICATION:

FIELD CROPS: Apply 16-32 oz. per acre (1.25 - 2.5 liters per hectare) when crops are 4-8 inches (10-20 cm) in high or when deficiency symptoms appear. Repeat application 2 - 4 weeks later if necessary.

FRUIT TREES AND GRAPES: Apply 16-32 oz. per acre (1.25 - 2.5 liters per hectare) in early spring when new leaves are emerged or when deficiency symptoms appear. Repeat the application in about 4 weeks if necessary.

VEGETABLE CROPS: Apply 16-32 oz. per acre (1.25-2.5 liters per hectare) at about 2 - 4 weeks after emergence or if deficiency symptoms appear. Repeat the application 1-3 weeks later.

For best results, apply when the crop is in active growing stage, after irrigation or natural rain fall. For foliar application, it should be diluted with at least 20 times of water. **BIOMIN STARTER** will lower high pH of water and decrease the hydrolysis of most pesticides.

GUARANTEED ANALYSIS

| | |
|----------------|--------|
| Magnesium (Mg) | 0.8% |
| Boron (B) | 0.025% |
| Copper(Cu) | 0.1% |
| Iron (Fe) | 0.5% |
| Manganese(Mn) | 2.5% |
| Zinc (Zn) | 1.5% |

Weight per Gallon: 10.5 lbs.
(4.8 kg.)

PRODUCT INFORMATION

BIOMIN STARTER contains minerals for soil and foliar applications. It is completely available and non-phytoxic to plants when applied in accordance to directions. It is designed to prevent and correct mineral deficiency and to boost crops during critical stages or fast growing periods. It can be applied in combination with nitrogen fertilizer.

BIOMIN STARTER can be applied to FRUIT TREES, VEGETABLES, GRAPES, FIELD CROPS, and ORNAMENTAL GARDENS.
